Introduction to Software Quality Assurance

Automation and Modern Testing Tools

Advanced Quality and Capstone Project

Practical Software Testing

May 17, 2026

Abhay Gupta

Abhay Gupta, Co-Founder & Director, Board Infinity

# Mohamed Aziz Ben Salah

has successfully completed the online Specialization

# Software Quality Assurance and Testing

This certificate recognizes successful completion of the Software Quality Assurance and Testing: From Basics to Advanced specialization. Learners have demonstrated proficiency in manual and automated testing, defect management, and quality assurance practices across Agile and DevOps workflows. They have gained hands-on experience with test design, bug reporting, automation tools, performance and security testing, and completed a capstone project applying these skills to a real-world QA scenario.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
