Abhay Gupta, Co-Founder, Board Infinity

Mohamed Aziz Ben Salah

has successfully completed the online Specialization

Software Testing Fundamentals for ISTQB Exams Prep

This program equips learners with comprehensive knowledge and skills in foundational software testing, preparing them for the ISTQB Foundation Level certification. Participants will master techniques such as static and dynamic testing, risk-based testing, and defect management, along with practical expertise in using industry-standard tools for test planning, execution, and automation. By completing this specialization, learners are prepared to enhance software quality and reliability in any software development environment.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
